

Nov

2025

11/1

(4:45)

Movement 11:00-12:15

(UP 7700) TM#3 Burnt leads on carbody side not reported had to change end boot, and connect & remove. Took more time than what task gave.

11/2

(7:39)

Movement 3:00-4:00

(UP 6012)

11/3

Movement 11:00-12:10

(10:14)

(UP 1856)

(UP 4881)

11/4

(5:56)

(UP 2008)

Completed all task assigned

11/5

(5:14)

Movement 3:00-4:00

(UP 7738)

LTA could not be downloaded due to not having a PMCIA card reader available. ACC problems

(~~UP 6232~~) IDler TM#3 All ready diagnosed

11/8

(3:52)

Movement 11:00-12:00

closed all task could be done to house  
(UP 8377)

11/9

(3:51)

Movement 11:00-12:00

(UP 5958) HPOP Mod 212 KIT NOT  
orders. Air Compressor not changed.  
(UP 8957) Completed task assigned

11/10

(0)

(UP 7913) Could run due to injectors  
on 3 pit being changed. Was told  
by manager another locomotive was  
going on 3 pit but never happened  
(at the beginning of shift)

11/11

(9:47)

(UP 6860)

11/12

(3:01)

Movement 3:30-4:00

(UP 7401) Has no water, Michigan tank  
valve open (can not start). Several  
tasks require running of NS under the  
shed

Nov 2025

11/16

(6:29)

Movement 11:00-11:30

(UP 3897) Completed assigned task

(UP 6465) Could load or start due to harness damage in CAS area

11/17

(3:39)

(UP 1435) Completed all task

(UP 2926) " " "

(UP 8899) " " "

11/18

(5:20)

(UP 8785) Completed all task done in house

11/19

(3:38)

Movement 11:00-12:50

(UP 5616) Cow not start oil out stack

all task require unit running

(UP 8281) Had ember & isolation switch

faults (loading issues)

11/22

(3:00)

(UP) 5102) could not download data; Mechanist did work on

(UP 5547) Completed task assigned

11/23  
(UP 8841)

(7124)

11/24

(6711)

(UP 5264) CDC 2 Bad needles changing  
(UP 725) & (UP 6493) MechWkst work only

11/25

1:30

(39 min)

Movement 11:00 - ~~1:30~~

(UP 6787) Had to change crank sensor.  
Had to remove EFI harness, broken  
hoses, and gaskets not ordered

11/26

(0)

Movement 11:00 - 12:30

(UP 2737) ~~Had~~ Injector harness had to  
be ordered. ~~Had~~ had to outboard  
with all tools needed in house (Metric)  
located in multiple areas of shop

11/29

(58 min)

Movement 11:00 - 3:00

(UP 6787) loaded CARB software. End up  
being a bad CARB Panel

No 0

2025

11/30

(1:55)

(UP 8587) EMD issues, Manager (Zeke)

convince electrical problem, wanted me  
to perform multiple diagnostic checks  
to keep from <sup>changing</sup> ~~me~~ chemical component per

tsq
